

CONTIGROUND

Tryka CONTIGROUND is an IP67 product available in 500mm and 1000mm lengths and has been specifically designed to create seamless lines of LED lighting. The compact design offers a versatile and aesthetically pleasing profile which can be mounted using the installation kit for inground application.

This product is suitable for continuous installation. The cable entry/exit points are located at the bottom to allow the profiles to fit together neatly for seamless light effect, perfect for walkover applications, stages, landscapes, walkways, mood lighting, marker lighting and applications requiring visual guidance.

ContiGround is made from stainless steel and a frosted glass diffuser.
